Kevin Andrés Galindo

Senior Frontend Developer

+57 318 615 5060 | kevingalindos@gmail.com | linkedin.com/in/kevin-galindo-frontend-dev | Colombia

PROFESSIONAL SUMMARY

Senior Frontend Developer with **5+ years of experience** building scalable financial web applications for top Latin American banks (Falabella, Banco AV Villas, Banco Popular). Specialized in **Angular, TypeScript, NgRx and RxJS**, with deep expertise in component-driven architecture, Web Components and the Facade design pattern. Consistently maintains **90%+ Jest unit-test coverage** in production environments. Proven collaborator in cross-functional Agile/Scrum teams; clear communicator with stakeholders at all levels.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — Falabella Latam (Credit Card Payments)
Dec 2024 – Present
Amaris Consulting · Remote · Colombia

- Delivered reusable **Web Components with Angular & TypeScript** for Falabella Chile's mobile banking app, supporting rollout to Peru and Colombia.
- Architected feature modules using **Facade pattern + NgRx**, reducing inter-service coupling and cutting onboarding time for new developers.
- Maintained **90%+ Jest unit-test coverage** across all delivered modules, ensuring zero critical regressions in production.
- Coordinated with architecture, security and infrastructure squads in **2-week Scrum sprints** via GitLab CI/CD, Jira and Confluence.

Senior Frontend Developer — SGDEA Enterprise Document Management
Sep 2024 – Dec 2024
LinkTIC S.A.S · Bogotá · Colombia

- Built a library of reusable **Angular components** that reduced repetitive UI code by ~40% across the platform.
- Configured **Azure pipelines** for automated deployments across dev, QA and production environments.
- Resolved **15+ critical bugs** within the first sprint, stabilising the QA release cycle.

Semi-Senior Frontend Developer — Mobile Banking Apps
Dec 2021 – Feb 2024
ADL Digital Labs · Bogotá · Colombia

Banco AV Villas – Mobile Banking (Jun 2023 – Feb 2024) · Banco Popular – Personal Loans (Dec 2021 – May 2023)

- Developed and optimised financial interfaces using **Angular, SASS, TypeScript, RxJS and Redux**, serving **hundreds of thousands of active users**.
- Applied the **Facade design pattern** to the service layer, reducing coupling and improving code maintainability by an estimated 30%.
- Ensured full compliance with **financial sector security and regulatory standards** across all features.
- Led code reviews and enforced **Git Flow branching strategy**, reducing merge conflicts and improving team delivery cadence.

Junior Frontend Developer — Corporate Landing Page
Mar 2020 – Feb 2021
F13 Technologies · Florencia · Colombia

- Built a responsive corporate site with **React.js, TypeScript, SASS and Ant Design**, deployed on Firebase with sub-2s load time.

- Optimised performance with **Gatsby.js**; implemented data-mocks to decouple frontend development from backend availability.

TECHNICAL SKILLS

Frontend Frameworks	Angular 12+, React.js, TypeScript, JavaScript ES6+, Web Components
Styling	HTML5, CSS3, SASS/SCSS, BEM, Responsive Design, Accessibility (a11y)
State & Reactivity	NgRx, RxJS, Redux, Context API, React Hooks, Observables, async/await
Testing & Quality	Jest (90%+ coverage), Clean Code, SOLID Principles, Facade / Observer patterns
Tooling & DevOps	Git Flow, GitHub, GitLab CI/CD, Azure, Jira, Confluence, REST APIs, Postman
Methodologies	Scrum / Agile, code review, technical documentation

EDUCATION

B.Sc. Systems Engineering   2021 – 2025 (in progress)
Universidad de la Amazonia · Colombia

Continuing Education

- NgRx in Angular: From Zero to Production — Fernando Herrera, Udemy (2024)
- ReactiveX / RxJS: In Depth — Fernando Herrera, Udemy (2024)
